Votes For Women!

A PRESENTATION BY CAROLYN IVANOFF

March 14th

In 1848, the first women's rights convention was held in Seneca Falls, New York. But it wasn't until 1920 that the 19th Amendment was ratified, giving American women the right to vote. Our guest speaker, **Carolyn Ivanoff**, will present the program in period clothing to commemorate the titanic struggle for suffrage. Told through period photos, political cartoons and editorials, Carolyn's presentation will be as engaging as her previous presentations entitled *Civil War Medicine* and *The Ghosts of Gettysburg*.

HONORING THE SEWARD WOMEN

We will also have displays to celebrate the remarkable lives of William Henry Seward's wife, Frances, and their daughter Fanny. Both of these exceptional women were activists and friends of the era's most progressive women.
